

## Less sweat equals greater comfort and performance

- AlphaTec AQUADRI gloves are engineered with a unique moisture management technology that keeps hands dryer, for significantly longer periods of time.
- The design features a two-layered coating construction with a superior nitrile film for advanced chemical protection, and an inner soft foam coating helps feeling the difference especially when sweaty hands are a problem, resulting in an improved user comfort and performance.
- Patented AQUADRI technology brings a unique performance in moisture management that significantly reduces sweat build up inside the glove under hot & humid environments.

### Industries

- Automotive
- Automotive Aftermarket
- Machinery and Equipment
- Metal fabrication
- Chemical

### Applications

- Assembly & inspection of components
- Oil, fluids and filter change
- Painting or cleaning tools or robots
- Plating, coating, sealing, painting
- Handling incoming goods
- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Cleaning furnaces, distillation pumps, valves or lines and crackers BTX process

#### Key Features

- High performance Nitrile compound offers a far superior snag, puncture and abrasion protection compared with rubber or neoprene gloves
- Reversed lozenge palm finish for improved dry/wet grip
- Foldable cuff gutter to prevent dripping on the forearm
- The AlphaTec AQUADRI gloves are addressing the most relevant need for the workers sweat reduction. Less sweat equals greater comfort and performance
- Longer version than the 58-330 for further protection
- Compliant with FDA food handling requirements
- Also available in vend pack
