

Lens Cleaning Solution

Technical Datasheet

It is indispensable in many industrial applications to have a clear field of vision. To improve wearers safety and comfort MSA Lens Cleaning Solutions provide a simple and uncomplicated cleaning process for all MSA eyewear and visors. With the same process you add or refresh antifog properties.

Every lens coating in the market loses its antifog properties after repeated cleaning, with MSA spray you add it every time you clean!

Cleaning & Antifog Spray

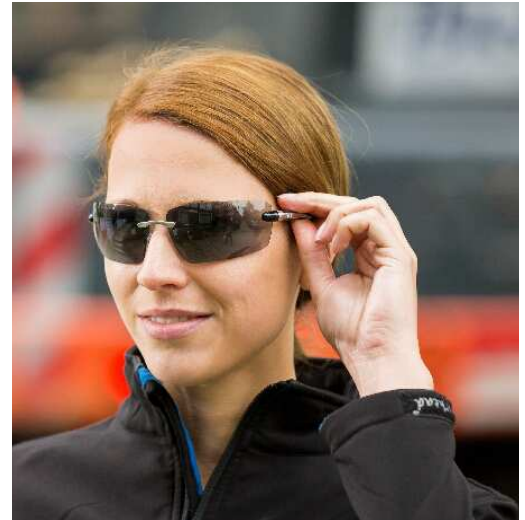

- Effective cleaning and addition of antifog to every MSA spectacle, goggle lens(s), visor
- 110 ml liquid in bottle with plastic pump
- Spray on lens(s) evenly, then remove the excess with a soft, lint-free cloth

Wiping Tissues

- Wipes are ideal to wipe up liquids and dust
- Supplied in handy pop-up box with 280 sheets
- Anti-static dispensing to reduce lint and antistatic discharge

Spectacle Soft Bag

- The microfiber soft bag fits all MSA spectacles
- To be used to easy store your spectacle and clean it
